

THE BITE

INSMILE

A completely hidden, behind-the-teeth orthodontic system that straightens teeth without visible brackets or removable trays. Designed for teens and adults, it uses a custom Smartwire that is placed on the backside of your teeth to gently shift them into place. [1, 2, 3]

ANGEL ALIGNERS

These custom-made, removable, and transparent orthodontic trays are chic, sleek and discrete. They're also BPA and latex free!

DID YOU KNOW!?

YOU CAN -AND SHOULD- CONTINUE GETTING ROUTINE DENTAL CLEANINGS WHILE IN BRACES!

WHY!?

01

Prevention

Braces create small spaces where food and plaque can build up, so routine cleanings help prevent cavities and gum disease.

02

Early Detection

Regular dental cleanings allow the dentist or hygienist to check for problems early, such as swollen gums, staining, or damage around brackets and wires.

03

Maintenance

Professional cleanings help keep teeth looking healthy and bright during orthodontic treatment by removing plaque and tartar that are difficult to clean with brushing alone.
